We do not support Bills 8 & 9. We have a family home in the Sunset Beach area. Until we can retire there, we do rent the home from time to time. At times it is left vacant which is very worrisome as it is. We would invite the criminals on over as well as the homes around us if we were to put the address on the internet. Any person whoever rents our home no matter what length of time is screened carefully. Our neighbors are more happy with us than some of the long term renters. You just can't do this in an environment such as the North Shore without causing bad results for your home and all of those around.
